TEESSIDE SU PARKING & LOAD IN

WHAT3WORDS: CHAIR.PIPE.ONION | FOR GOOGLE DROP PIN CLICK HERE!

ACCESSING THE SITE & LOADING BAY

Access via the crossroads of Woodlands Road and Southfield Road. Drive onto the pedestrian section and use the intercom to access the campus.

- You must speak to security staff and explain why you need to access it before they will drop the barrier. Once you have accessed the pedestrianised area, the loading bay for the students union is 20 yards on your left, just after The Southfield pub.
- Please note that we can accommodate 1x Tour bus to be parked on the pedestrianised area on Southfield Road (as shown to the right) or 1x HGV Lorry and 1x Tour Bus.
- Due to the size of the loading bay, vehicles must be moved to one of our secure car parks after unloading. Please speak to your venue rep on the day.
- The best method of access is to drive directly up Marton onto Southfield road approaching the crossroads from straight on limiting turning circle.
- 32A 3-phase power is available from the loading bay. There is a hatch through the phase allowing access directly from the loading bay to the parking space on Southfield Road. Roughly 15m of cable would be needed to reach. Pedestrian barriers can be available upon request to secure this area.

TEESSIDE SU PARKING & LOAD IN

LOAD IN SPECIFICATIONS

AVAILABLE POWER:

- 1 X 13 AMP
- 1 X 32 AMP 3-PHASE

LOADING BAY ACCESS

The loading bay has a custom-built 2.7-foot-high loading dock, ideal for loading directly into the building. The lift is a short flat push 20 metres from the loading bay. There is a fixed ramp that runs round the loading bay outskirts up to the dock.

SHOWERS

Showers are available from the Athena University building, access will be granted via the swipe card you receive from your venue rep. Directions will be given on the day upon request.
